Plant and Soil **123**: 301–303, 1990.

Contents of Volume 123 1990

Volume 123, No. 1

A. A. Meharg and K. Killham, The effect of soil pH on rhizosphere carbon flow of *Lolium perenne* 1
J. J. Lucena, A. Gárate, A. M. Ramon and M. Manzanares, Iron nutrition of a hydroponic strawberry culture (*Fragaria vesca* L.) supplied with different Fe chelates 9
A. E. Linkins, R. L. Sinsabaugh, C. A. McClaugherty and J. M. Melills, Cellulase activity on decomposing leaf litter in microcosms 17
A. Piccolo and J. S. C. Mbagwu, Effects of different organic waste amendments on soil microaggregates stability and molecular sizes of humic substances 27
D. C. Whitehead, A. W. Bristow and D. R. Lockyer, Organic matter and nitrogen in the unharvested fractions of grass swards in relation to the potential for nitrate leaching after ploughing 39
C. B. Christianson, A. Bationo and W. E. Baethgen, The effect of soil tillage and fertilizer use on pearl millet yields in Niger 51
G. M. Farias and G. J. Griffin, Extent and pattern of early soybean seedling colonization by *Fusarium oxysporum* and *F. solani* in naturally infested soil 59
Z. Javid and R. F. Fisher, Fertilization influences nitrogen dynamics in soils under *Dalbergia sissoo* 67
A. G. Bengough and C. E. Mullins, The resistance experienced by roots growing in a pressurised cell: A reappraisal 73
S. D. Hong, R. H. Fox and W. P. Piekielek, Field evaluation of several chemical indexes of soil nitrogen availability 83
E. Otabbong, Chemistry of Cr in some Swedish soils. V. Interaction between CrO_3 and $Si(OH)_4$ and its impact on Cr toxicity and elemental contents in ryegrass (*Lolium perenne*) 89
R. McSorley and D. W. Dickson, Vertical distribution of plant-parasitic nematodes in sandy soil under maize 95
A. D. Mackay, J. R. Caradus and M. W. Pritchard, Variation for aluminium tolerance in white clover 101
H. Sieghardt, Heavy-metal uptake and distribution in *Silene vulgaris* and *Minuartia verna* growing on mining-dump material containing lead and zinc 107

Short communications

P. J. Cotterill, Influence of grass proportion in stands of burr medic and subterranean clover on legume re-establishment and productivity following wheat 113
N. D. Majumder, S. C. Rakshit and D. N. Borthakur, Genetic effect on uptake of selected nutrients in some rice (*O. sativa* L.) varieties in phosphorus deficient soils 117
H. Bolton, Jr., L. F. Elliott, R. F. Turco and A. C. Kennedy, Rhizoplane colonization of pea seedlings by *Rhizobium leguminosarum* and a deleterious root colonizing *Pseudomonas* sp. and effects on plant growth 121
M. T. Ogan, The nodulation and nitrogenase activity of natural stands of mangrove legumes in a Nigerian swamp 125

Volume 123, No. 2

B. Sattelmacher, F. Klotz and H. Marschner, Influence of the nitrogen level on root growth and morphology of two potato varieties differing in nitrogen acquisition 131
J. Wieneke, Phosphorus efficiency and phosphorus remobilization in two sorghum (*Sorghum bicolor* (L.) Moench) cultivars 139
V. Römheld and H. Marschner, Genotypical differences among graminaceous species in release of phytosiderophores and uptake of iron phytosiderophores 147
B. Feil, R. Thiraporn, G. Geisler and P. Stamp, Root traits of maize seedlings – indicators of nitrogen efficiency? 155
H. M. Helal, Varietal differences in root phosphatase activity as related to the utilization of organic phosphates 161
J. R. Caradus, The effect of shoot and root genotype on phosphorus concentrations of shoots and roots 165
P. Burauel, J. Wieneke and F. Führ, Carbohydrate status in roots of two soybean cultivars: A possible parameter to explain different efficiencies concerning phosphate uptake 169
R. Pinton, Z. Varanini and A. Maggioni, Properties of potassium uptake by seedling roots of grape cultivars 175
S. Bottacin, M. Saccomani and G. Ferrari, Sterol content and efficiency of ion uptake by roots of maize genotypes 181
R. Baas and M. L. van Beusichem, Genetic differentiation in *Plantago major* L. in growth and P uptake under conditions of P limitation 185
C. J. T. Spitters† and A. H. C. M. Schapendonk, Evalutation of breeding strategies for drought tolerance in potato by means of crop growth simulation 193
S. Schubert and A. Läuchli, Sodium exclusion mechanisms at the root surface of two maize cultivars 205
L. M. Gourley, S. A. Rogers, C. Ruiz-Gomez and R. B. Clark, Genetic aspects of aluminum tolerance in sorghum 211
Y. I. Mladenova, Influence of salt stress on primary metabolism of *Zea mays* L. seedlings of model genotypes 217
A. Aniol, Genetics of tolerance to aluminium in wheat (*Triticum aestivum* L. Thell) 223
H. M. Helal, H. Arisha and E. Rietz, The uptake of trace elements by spinach and bean varieties of different root parameters 229
F. J. M. Maathuis and H. B. A. Prins, Electrophysiological membrane characteristics of the salt tolerant *Plantago maritima* and the salt sensitive *Plantago media* 233
E. Alcantara, M. Fernandez and M. D. de la Guardia, Genetic studies on the acidification capacity of sunflower roots induced under iron stress 239
D. Kuiper, J. Schuit and P. J. C. Kuiper, Actual cytokinin concentrations in plant tissue as an indicator for salt resistance in cereals 243
M. C. Saxena, R. S. Malhotra and K. B. Singh, Iron deficiency in chickpea in the Mediterranean region and its control through resistant genotypes and nutrient application 251
G. Jagnow, Differences between cereal crop cultivars in root-associated nitrogen-fixation, possible causes of variable yield response to seed inoculation 255
C. Diederichs, Improved growth of *Cajanus cajan* (L.) Millsp. in an unsterile tropical soil by three mycorrhizal fungi 261
N. S. Wilhelm, R. D. Graham and A. D. Rovira, Control of Mn status and infection rate by genotype of both host and pathogen in the wheat take-all interaction 267
